WORK HISTORY

Software Engineer III | CACI International Inc - Washington, DC

03/2020 - CURRENT

Working with a dedicated team to develop and support applications for the Executive Office of the President using Angular JS, C#, ASP.NET MVC, Entity Framework, and T-SQL.

Mid Application Engineer (Contract) | American College Of

08/2019 - 03/2020

Radiology - Reston, VA

Full stack application engineer working with Angular 8, Docker, SQL, .Net Core, and REST Web APIs.

Worked with a small agile team using the latest and greatest frameworks and tools to increase efficiency of research conducted within the medical field.

Application Developer II | Applied Technology Solutions Inc. -
Wilmington, NC

07/2016 - 08/2019

Full stack developer and Scrum Master. I worked on a rewrite of a large enterprise system into a modern framework. We used AngularJS, Javascript, C# MVVM, and PLSQL to develop a responsive, scalable application. As a scrum master I mitigated roadblocks to deliver successful burn down reports to stakeholders.

Software Engineering Intern | Corning Inc. - Wilmington, NC

04/2015 - 08/2020

Developed in house programs to control and manage factory operations. Levered ASP.NET web forms applications as well as VBA macros to complete data change control of factory production information.
